A photograph of a lush forest with many tall, thin tree trunks and a thick canopy of bright green leaves. The scene is brightly lit, suggesting a sunny day. A white rectangular box is superimposed over the middle of the image, containing text.

Traditional Teak, where tradition meets modern living, and every piece tells a story of heritage and enduring style....

Designers we have worked with:

Povl Eskildsen

A product of the classic Danish furniture tradition.

Povl studied architecture at the Aarhus School of Architecture. He initially worked at a number of Danish indoor furniture companies before turning to outdoor furniture.

Povl brought a new sense of design to the outdoor furniture industry, particularly in teak furniture. His designs brought the elegance and comfort that had been the norm in Danish indoor furniture for decades to a category where weight rather than design and comfort were the main selling points.

Dick Björk

Dick Björk grew up as a cabinetmaker by his father's side in the family furniture store in Helsingborg, Sweden. Dick completed his training in traditional woodworking and wood technology at the renowned Tratekniska Skolan in Helsingborg, Sweden.

After working as a craftsman with some of Sweden's largest furniture manufacturers, Dick turned to designing outdoor furniture.

His early work included pioneering mixed outdoor furniture for Sweden's legendary Berga Form
